## ITEMS FROM DOCK.

Mr. C. B. Sineath, depot agent at Elliotts, died at the residence of his father-in-law, Mr. Wesley J. Buckley, at Bishopville, last Saturday about 12 o'clock. Mr. Sineath was a sufferer from consumption, and at the burning of his house at Elliotts some weeks ago exerted himself to so great a degree that he never recovered from it. He was about 33 years of age, and came to this county from North Carolina. For a time he was depot agent at Bishopville but latterly at Elliotts. He leaves a wife and four children to mourn his loss.

Last Monday afternoon Mr. David Cuttino, of Packsville, was killed almost instantly by the accidental discharge of both barrels of his gun. He had been hunting during the afternoon, and returned to the store of his brother, Mr. C. L. Cuttino, and placed his gun on the edge of the piazza of the store against a post, and turned to go into the store. The gun slipped off the edge of the floor of the piazza, and Mr. Cuttino hastened to catch it, but before he could reach the hammer had struck the floor and the two loads entered his side at the point of the ribs.

Coloration Day will be celebrated on Monday, 3rd 1898. The colored people here will be delighted.

Christmas day was very cold and rainy, much to the regret of the young folks and the hunters.

Mr. R. J. Nesmith spent his Christmas in Darlington.

Miss Mary Godwin, who teaches school at Trio, is home for the holidays.

Master Laurie Rhem is also at home to spend Christmas.

Messrs. J. J. Watson and J. P. Britton, of Florida, are here on a visit to relatives.

The young people are enjoying themselves very much just now attending parties.

Bently Ferdon, of Georgia, scooped down among us and stole away one of Mr. Paston's daughters.

Thos. H. Brockenton, we understand, will leave in a few days, with his family, for Florida. We also hear of others expecting to leave soon.

Miss Grace Jervey, of Charleston, will likely fill the unexpired term of our school, which was caused by the sad death of Miss Bessie Welch. Miss Welch was a very efficient teacher and very much liked by all who knew her.

We hope our young friend who has just left us for other work will meet with kind friends and great success.

There must be a safe underground route to Cuba. The \$20,000 appropriated recently by Tammany Hall for the relief of sick wounded and Cubans is being applied judiciously by the Cuban Junta in New York. The supplies which consist largely of medicines and materials needed on battlefields and in hospitals, are being forwarded by the "usual route" to the insurgents. What route it is Spain would like to know, and for that reason the Junta is keeping it secret. American sympathizers who are in the secret are satisfied with the explanation.

**Cures Fever In One Day.**

A fresh protest in behalf of bird life has been caused by the appearance of owls on women's hats. Ornithologists say this fact is peculiarly objectionable. Owls eat field mice and other small rodents that prey on the crops. They work at night and nothing can take their place if they are exterminated.

**Are You Weak?**  
Weakness manifests itself in the loss of ambition and aching bones. The blood is watery; the tissues are wasting—the door is being opened for disease. A bottle of Brown's Iron Bitters taken in time will restore your strength, soothe your nerves, make your blood rich and red. Do you know more good than an expensive special course of medicine. Brown's Iron Bitters is sold by all dealers.

When a man reads a newspaper sitting between two women in a street car, he always pretends that he never bothers with the woman's page.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl street New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of The County Record who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

He has proved the dreaded consumption to be a curable disease beyond any doubt. There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured in all parts of the world.
